### Top Five Lowest Stages

Period of Record - 1941 to September 30, 2016

Date	Crest (ft)	Flow (cfs)	Remarks
7/8/2002	6.10	missing	Also occurred 10/1/1941 and 7/13/1999 and 8/23/1999 - Lowest stage known - considered unimportant
9/15/2001	6.50	missing	none
9/4/1999	6.70	missing	Also occurred 12/8/1998 and 9/2/1999
11/25/2000	6.90	missing	Also occurred 11/24/2000
1998 - 2006	7.00	missing	Has occurred many dates

### Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
------	------------	------------	---------

This is a not a USGS gauge. Stage data is very limited.

### Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing includes valid and sometimes questionable stages. In some cases we have a brief list of questionable stages since it was unclear if the readings were due to a gauge malfunction or there wasn't enough data to determine its validity. Low stage (if found) are listed if there hasn't been any low stages in the last 15 years. The USGS sometime tweak their readings so please contact the USGS if you need more information.
